To Whom it May Concern:

Taramatie Persaud is currently under my care and was seen at our office on 10/27/17. Patient must follow up in 3 months. Due to the two surgeries that Mrs. Persaud had previously on February 6th and June 26th, she is still under my care for her recovery. The surgery on June 26th was to repair her stomach and her scar tissue as well as her hiatal hernia. This caused a lot of swelling which she is still suffering from. She continues to vomit after eating and drinking. Sending her for blood work, and a swallow study. Patient is to follow up after these tests with Dr. Pais for another endoscopy. Patient will need constant following up after these tests.

If you have any questions feel free to contact my office at (914) 347-0162.

Sincerely,

Jonathan Giannone, M.D.
